

ASSEMBLY MANUAL

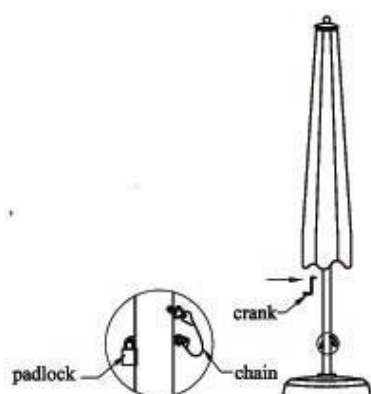

1. Assembly I

Take out parasol carefully from the carton. Put it slowly into the bottom base.

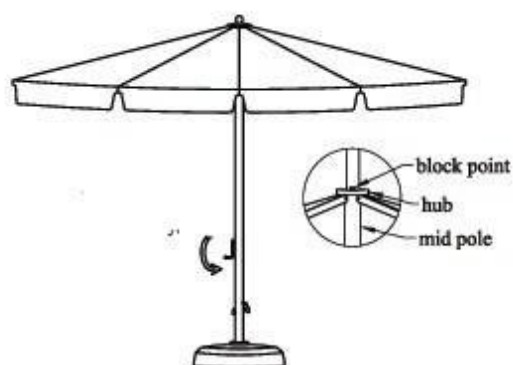

2. Assembly II

Use a pin to fix the parasol and the base. If necessary, lock the pin by a pad lock. Insert the crank into the hole (make sure the crank is completely inside the hole to avoid falling off while turning)

3. Opening the parasol

Turn the crank in **clockwise** direction to open the parasol completely till the parasol block point. (See picture.) Remove the crank out of the hole while open completely.

4. Closing the parasol

Put the crank into the hole to turn crank in **counter-clockwise** direction until the parasol is closed completely

Caution: Don't keep on turn crank while parasol closed completely. If you overturn, the parasol will open again.

3 . Storage

Remove the crank, put the protective cover over the parasol top and pull downward. Close the protective cover with the zipper.
